

Professional information

Nationality: **Belgian**

Birth date: **20/11/1968**

Sex: Male

Study level: **Master in IT**

Career Start: **01/07/1994**

General Profile

Laurent has joined the S.E.N.S. network in April 2019. Prior to that, he did join Deloitte in November 2000 as Senior Consultant in the Enterprise Application department, where he has played various roles including being responsible for managing the SAP consulting activities.

Laurent has about 25 years of consulting experience, specialized in the management of large international business transformation programs, supported by SAP implementations. He started his SAP career by supporting R/2 to R/3 migration with his technical skills, and then took over the role of functional consultant, team lead and then project manager on large international business transformation projects. He has been involved in activities in a variety of industries across Europe, including Consumer Business, Manufacturing, Pharmaceutical, High Tech and Distribution and Public sector. Roles have included project management, implementation planning and deployment management, analysis and redesign of business processes, prototyping, configuration, testing, training, interface design, issue resolution and migration to new platforms.
